Mindset & Abundance Principles

1. **What is a "scarcity mindset" versus an "abundance mindset"?**

4.
5. **How does money respond to energy and emotion?**
6.
7. Money is a medium of exchange. Feeling constant stress or resentment around paying bills associates money with negative emotion, while practicing gratitude for transactions shifts your energy toward prosperity.
8.
9. **What is the "abundance frequency"?**
10.
11. It is a mental and emotional state characterized by gratitude, freedom, trust, and generosity, replacing desperate clinging with open receptiveness.
12.
13. **Can you manifest money if you currently have debt?**
14.
15. Yes. Focus on generating value and growth rather than obsessing over the negative feelings attached to debt. View debt as evidence of credit that was extended to you in the past.
16.
17. **What is the difference between wanting money and needing money in manifestation?**
18.
19. "Needing" stems from desperation and lack, which attracts more feelings of lack. "Wanting" or expecting money with clarity and detachment creates alignment without resistance.
20.
21. **How do you overcome the fear of large sums of money?**
22.

23. Normalize having wealth by acclimating your mind to higher numbers through visualization, financial literacy, and comfortable interactions with high-value environments.

28.
29. **How does self-worth dictate net worth?**
30.

31. You rarely manifest beyond what you believe you deserve. Raising your internal sense of value makes it easier to set higher prices, ask for raises, or accept lucrative offers.

Unhealed past hurts create protective barriers and subconscious expectations of heartbreak, causing you to push genuine connection away.
